## Chairman's Report

It was great to have a get together at our last weigh-in Sunday afternoon. Good to catch up and tell a few tales. Even better to see some fish weighed in with young Jesse Harbourne taking out the inshore species with a good-sized Bream.

Hopefully our meetings will now continue. I look forward to seeing a good turnout at our next meeting on **Wednesday July 15<sup>th</sup>** at the Boat Club.

It looks like our planned Family Camping Weekend at Somerset Dam on the 14<sup>th</sup> to 16<sup>th</sup> August will be well attended with many members making bookings.

Unfortunately, the Cabins out there are booked out but there are still a few powered campsites available, just tell them you are with the RPGSC.

I am in the process of applying for a Moreton Bay Regional Council "Facilities Grant" to up-grade our Barbeque area by erecting a fixed metal roof instead of the shade sails. It will be a gabled roof carport structure that will enable us to use of this area even if the weather is bad. We will have it wired with lights and power and add roll down clears to the necessary sides to keep rain out. Although we have the option of the deck, sometimes this is inconvenient for MBBC. The MBBC Board of Directors have given their approval as this will be a great asset for the club. I have a couple of quotes already; we just need the Council funds.

Membership renewals are coming due and we have the new 2020 -2021 forms available. Two members have renewed already, it would be great to see as many members as possible renew early. Our AGM will be held in August at which all committee positions become vacant. If you wish to be considered for a position please contact our current Secretary, Greg Evens, for a Job Description and application form. Later in August we will hold our Presentation Dinner. The committee have begun planning and booked the MBBC for that evening.

There have been a few fish caught with the Winter Whiting showing up in numbers. Outside a few Snapper have been caught but many more in the Bay. Don't forget the closure commencing in July.

It will be good to hear a few fishing stories on the 15<sup>th</sup> of July. In the words of one of the legends of Game Fishing, "go get 'em".

Tight lines.           Ralph

## Club Captain's report

Looking forward to seeing our fishing members and guests back for a chat at the next fishing meeting. Reminder : first Meeting is at the club at 7pm on the 15<sup>th</sup> July, our AGM 12<sup>th</sup> August (TBC) and our Presentation Trophy night on the 22<sup>nd</sup> August.

What has occurred during Covid 19 and recently:  
Changes for recreational fishers include:

- a new annual seasonal closure for snapper and pearl perch from 15 July to 15 August
- increasing the size limit of pearl perch from 35cm to 38cm
- removing extended charter catch limits for snapper and pearl perch
- new boat limits for mud crab, prawns, snapper, black jewfish, barramundi, Spanish mackerel, shark, tropical rock lobster and sea cucumber, which hold the operator of the boat responsible for ensuring no more than 2 times the possession limit of these 9 priority black-market species is on board at any time (the boat limit does not apply to charter boats)
- general possession limit of 20 fish for species without a prescribed possession limit, excluding some bait species
- reducing the mud crab possession limit from 10 to 7
- reducing pipi and mollusc limits from 50 to 30.

Let's get out there and catch more. See you at the meeting everyone

To win the money for the monthly nominated fish inshore or offshore species, simply weigh in the heaviest **Amberjack** or **Tailor**. All fish weighed, regardless of whether they are in for the 'fish of the month' must be labelled with the angler's name and line class. To receive double club points, fish must be tagged or caught on the Club Weekend only and the cards correctly completed and handed in or fish weighed in at M.B.B.C. from 3.30pm to 4.30pm on the Sunday. Prizes for the heaviest 'fish of the month' will be awarded on the day so you must be there. Remember, club fishing weekend starts on midnight on **Friday 17<sup>th</sup> July** finishing on **Sunday 19<sup>th</sup> July** at 3.30pm.

## July Report

Many competitions and events have been cancelled or postponed due to the Covid 19 situation unfortunately. At this stage, the 2020 Hinchinbrook Fishing Festival to held at Halifax, North Qld on the October long weekend is still a goer. There may be some restrictions still in place regarding numbers inside venues but hopefully many current restrictions will be relaxed by October. The weekend agenda will include a meet 'n' greet, Fishing competition, presentation dinner and AGM. My plan at this stage to get up there a few days prior to check out the fishing and some of the sights. Apparently, the Mangrove Jacks and Barramundi can really fish up at this time of the year. I know of members from Ipswich, Maryborough, Sunshine and Kingaroy fishing clubs to name a few, will be making the trip. If anyone is interested in coming along let me know so I can get some idea of numbers. It should be a great trip.

Currently in the Champion Club we are in 3<sup>rd</sup> position with 44 species. Just ahead of Hinchinbrook and Kingaroy SFC.

If anyone need assistance navigating the ANSA QLD website site or submitting their captures, feel free to ask for assistance. Do not be scared of having a go and making a mistake, all can be easily rectified.

In fishing news, Vaughn and myself hit Somerset Dam on a cool and showery weekend. I knew the fishing had been tough before getting there so I wasn't surprised we only got a couple of fish. My best fish was caught on a white and green spinner bait cast towards a large log sloping into the water. Soon the Bass will start to school up making fish a bit easier. There was also some Redclaw around. The campers next to us score half a bucket of Redclaw each night using rockmelon for bait.

No points this month as we tally up the winners for FY2020!

## Fish in Schools

*Do you know a teacher or school who could help with breeding native fish that are disappearing from our waterways? They have funding through the Commonwealth Community Environment Program to set up breeding ponds at primary or secondary schools in the Brisbane and Petrie Electorates. Schools or teachers who'd like to take part can message the Fish In Schools Facebook page.*

Can anyone guess what Jon Eagle & Brad Clayton are doing in 600m of water? Hint: it involved a brick and a nomination for the toilet seat award!

## Weightmaster's report

It was great to see everyone back at the club again for the first weigh in since the Covid-19 closure. The fish for this month were Bream and long tail tuna. Nobody weighed a tuna, however the bream was hotly contested between Jesse and Diego, who both brought a few other fish to weigh. Jesse won the bream prize by 20grams and weighed the heaviest fish for the weigh in, an 11.21kg thread fin salmon.

The species for next month are Amberjack (\$400) and Tailor (\$50).
